Date Issued: 15 March 2024

CERTIFICATE OF ANALYSIS: 105733

Consignment Number: 6924016816
Event: 09-Feb-2024
Delivery Date: 23 February 2024
External Code: JHT-1707486553
LGC Reference: 683614
Bag ID 1: 02180668
Bag ID 2: 02180667
Sample Type: Blood
Date Analysis Commenced: 23 February 2024

The sample was delivered to LGC with the security seals intact on arrival.

I, the undersigned, supervised the confirmatory analysis of the above sample.

Result:

The following result has been issued under LGC's Flexible Scope of Accreditation. The confirmatory analysis was performed using documented LGC methods, which identified the presence of phenylbutazone and oxyphenbutazone in the blood sample.

Signed:

Emily Perry

Senior Scientist
